

Gimp

this is my flow:

1. Text

2. Text to path

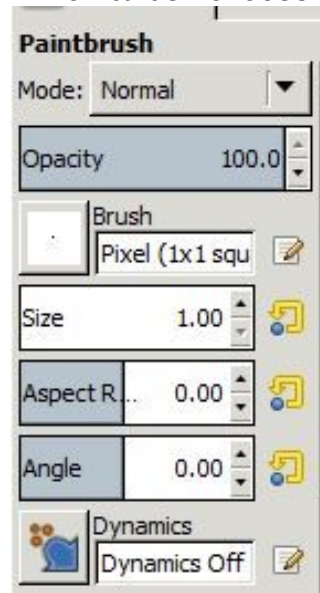

3. Duplicate Path

4. Move Path (8 pixel) better 15pixel

5. Click right on bottom path>tools>Generate intermediate paths (end=front path ; 8 better 15)

6. Prepare gradient

7. Paintbrush choose 1 px, dynamic off

8. Image> stroke or fill visible paths (color=from gradient; stroke; multiple;
background=transparent)
